

### **Additional Task Items:**

1. Revise and properly catch global error message pages for production environment
2. Test post list paging performance
3. Fix build errors
4. Fix console.log errors
5. Verify that "Messages" email sending is working
6. Display max file upload size when user hover over file-upload icon for post and messages
7. Adjust Footer height to make sure it sticks to bottom of page
8. Make sure all the posts tags are displayed on the post detail page.
9. Upgrade to next js 12

10. Hamburger menus need revisions + Post list page not 100% responsive on mobile
